by universal consent the physical faculties of man have been divided into five senses seeing hearing touching tasting and smelling it is of matter pertaining to the faculty of smelling that this book mainly treats of the five senses that of smelling is the least valued and as a consequence is the least tutored but we must not conclude from this our own act that it is of insignificant importance to our welfare and happiness by neglecting to tutor the olfactory nerve we are constantly led to breathe impure air and thus poison the body by neglecting the warning given at the gate of the lungs persons who use perfumes are more sensitive to the presence of a vitiated atmosphere than those who consider the faculty of smelling as an almost useless gift in the early ages of the world the use of perfumes was in constant practice and it had the high sanction of scriptural authority the patrons of perfumery have always been considered the most civilized and refined people of the earth if refinement consists in knowing how to enjoy the faculties which we possess then must we learn not only how to distinguish the harmony of color and form in order to please the sight the melody of sweet sounds to delight the ear the comfort of appropriate fabrics to cover the body and to please the touch but the smelling faculty must be shown how to gratify itself with the odoriferous products of the garden and the forest

personal hygiene and image care are as important as drinking and eating to satisfy these needs a powerful cosmetics industry has developed offering a huge variety of products unfortunately many of these products contain ingredients that are foreign to our organism and could harm your health and in their production the ecosystem in which we live organic cosmetics try to use as many natural ingredients as possible to minimize their impact on human health and the environment by using renewable resources and non toxic ingredients

poucher s perfumes cosmetics and soaps has been in print since 1923 and is the classic reference work in the field of cosmetics now in a fully updated 10th edition this new volume provides a firm basic knowledge in the science of cosmetics including toiletries as well as incorporating the latest trends in scientific applications and legislation which have occurred since the 9th edition this edition will not only be an excellent reference book for students entering the industry but also for those in specialized research companies universities and other associated institutions who will be able to gain an overall picture of the modern cosmetic science and industry the book has been

logically ordered into four distinct parts the historical overview of part 1 contains an essay demonstrating william arthur poucher s influence on the 20th century cosmetics industry as well as a chapter detailing the long history of cosmetics part 2 is a comprehensive listing of the properties and uses of common cosmetic types ranging from antiperspirants through to sunscreen preparations there are an increased number of raw materials in use today and their chemical physical and safety benefits are carefully discussed along with formulation examples the many additions since the last edition demonstrate the dramatic recent expansion in the industry and how changes in legal regulations affecting the development production and marketing of old established and new products are operative almost worldwide information on specialist products for babies and others is included within individual chapters the chapters in part 3 support and outline the current guidelines regarding the assessment and control of safety and stability this information is presented chemically physically and microbiologically part 3 chapters also detail requirements for the consumer acceptability of both existing and new products those legal regulations now in force in the eu the usa and japan are carefully described in a separate chapter and the remaining chapters have been extensively updated to explain the technical and practical operations needed to comply with regulations when marketing this information will be invaluable to european union and north american companies when preparing legally required product information dossiers the final chapters in part 4 contain useful information on the psychology of perfumery as well as detailing methods for the conduct of assessment trials of new products as ingredient labelling is now an almost universal legal requirement the international nomenclature of cosmetics ingredients inci for raw materials has been used wherever practicable the advertised volume is the 10th edition of what was previously known as volume 3 of poucher s cosmetics and soaps due to changes in the industry there are no plans to bring out new editions of volume 1 and 2
