filmmakers have drawn inspiration from the pages of emile zola from the earliest days of  
cinema the ever growing number of adaptations they have produced spans eras genres  
languages and styles in spite of the diversity of these approaches numerous critics regard  
them as inferior copies of a superior textual original but key novels by zola resist this  
critical approach to adaptation both at the level of characterization and in terms of their  
own textual inheritance they question the very possibility of origin be it personal or textual  
in the light of this questioning the cinematic versions created from zola s texts merit critical

sympathetic readers the essays collected here respond to the original request in diverse ways taking up a whole spectrum of positions about darnton s work they attempt an answer based on deep reflection or assiduous source research or both in a coda to the volume robert darnton responds robustly to the various readings of his work in places he seeks to rescue it from what he considers to be false interpretations and to set the record straight but his essay is not just a rebuttal it moves the debate on bringing new insights and information not previously published his conclusion are as flexible open ended as one could wish and in line with which they have been richly plumbed in his writings the threads running through the various essays are drawn together by a comprehensive index of eighteenth century persons and writings
