learn to identify evaluate and refine your approach to forming theological conclusions based on the biblical text the bible has long served as the standard for christian practice yet believers still disagree on how biblical passages should be interpreted and applied only when readers fully understand the constructs that inform their process of moving from scripture to theology and those of others can christians fully evaluate teachings that claim to be biblical in this book part of the counterpoints series scholars who affirm an inspired bible relevant and authoritative for every era present models they consider most faithful to scripture walter c kaiser jr principlizing model daniel m doriani redemptive historical model kevin j vanhoozer drama of redemption model william j webb redemptive movement model each position receives critiques from the proponents of the other views moreover due to the far reaching implications this topic holds for biblical studies theology and church teaching this book includes three additional reflections by christopher j h wright mark l strauss and al wolters on the theological and practical interpretation of biblical texts the counterpoints series presents a comparison and critique of scholarly views on topics important to christians that are both fair minded and respectful of the biblical text each volume is a one stop reference that allows readers to evaluate the different positions on a specific issue and form their own educated opinion

can the dewey decimal system meet the needs of the rapidly changing information

environment moving beyond the presentation layer explores the dewey decimal system from a variety of perspectives each of which peels away a bit of the presentation layerthe familiar linear notational sequence to reveal the content and context offered by the dds library professionals from around the word examine how the content and context offered by the dds can evolve to meet the needs of the changing information environment with a special focus on the impact of the internet on current and future developments moving beyond the presentation layer examines whether the dewey decimal system is a rigid structure best suited to a physical information environment or a polymorphic one that can be adapted to meet a variety of physical and virtual needs this unique book reviews the 40 year history of the online use of classification systems the development of the relative index over 22 editions of the ddc recommendations to ensure the viability of the ddc in a time of mass digitization using dds in an environment where it hasn t been used before teaching the dds special issues related to the use of the dds in europe north america and africa and the future of online classification topics examined in moving beyond the presentation layer include using the ddc as the browsing mechanism for resource discovery classification as an online cataloging tool classification as an online end user tool browser behavior in a ddc based service the role of the dds in the ongoing hilt high level thesaurus project using the dds to organize resources localization and interoperability in knowledge organization mapping terminologies to classification systems the deweybrowser and much more moving beyond the presentation layer is an essential professional resource for librarians information scientists computer scientists and metadata and services specialists

interfaith dialogue in a plural world this volume is based on the belief that both the ecumenical and interfaith movements are looking for new orientations for their future the forces of globalization communications revolution and massive population movements challenge some of the theological assumptions and presuppositions on which they were built the entry of deep and divisive religious sentiments into the public space and the rise of militant forms of religious expression call on the interfaith movement to move beyond traditional forms of dialogue the challenge is to enter into a deeper engagement on the purpose and role of religious traditions in society the impasse facing these movements can only be overcome by new orientations as they look to the future this volume is not specifically on this problem however the collection of essays included in this volume although first given as lectures or written as articles traces past developments identifies the challenges these movements face today and suggests fresh theological moves to regain the initiatives to bring human communities closer together

oecd s annual report on employment and labour markets this edition includes articles on moving beyond the jobs crisis the global crisis in emerging economies institutional and policy determinants of labour market flows and part time work
