new essays examining the interface between 18th and 20th century culture both in pynchon s novel and in the historical past  
thomas pynchon s 1997 novel mason dixon marked a deep shift in pynchon s career and in american letters in general  
all of pynchon s novels had been socially and politically aware marked by social criticism and a profound questioning of american values they have carried the labels of satire and black humor and pynchonesque has come to be associated with erudition a playful style anachronisms and puns and an interest in scientific theories popular culture paranoia and the military industrial complex  
in short pynchon s novels were the sine qua non of postmodernism  
mason dixon went further using the same style wit and erudition to re create an 18th

century when america was being formed as both place and idea pynchon s focus on the creation of the mason dixon line and the governmental and scientific entities responsible for it makes a clearer statement than any of his previous novels about the slavery and imperialism at the heart of the enlightenment as he levels a dark and hilarious critique at this america this volume of new essays studies the interface between 18th and 20th century cultureboth in pynchon s novel and in the historical past it offers fresh thinking about pynchon s work as the contributors take up the linkages between the 18th and 20th centuries in studies that are as concerned with culture as withthe literary text itself contributors mitchum huehls brian thill colin clarke pedro garcia caro dennis lensing justin m scott coe ian copestake frank palmeri elizabeth jane wall hinds is professor and chair of the english department at suny brockport
