in recent decades our view of gnosticism has been revolutionized by the discovery of a coptic gnostic library at nag hammadi egypt currently gnosticism is seen as a phenomenon extending far beyond christianity and displaying a strong platonistic influence the opposition between the two systems was certainly not as sharp as plotinus claimed where why and how the ideological lines were drawn is discussed in the light of the new historical evidence

a distinguished international team of scholars under the editorship of carlo natali have collaborated to produce a systematic chapter by chapter study of one of the most influential texts in the history of moral philosophy the seventh book of aristotle's nicomachean ethics discusses weakness of will in its first ten chapters then turns in the last four chapters to pleasure and its relation to the supreme human good

gregory of nyssa is firmly established in today's theological curriculum and is a major figure in the study of late antiquity students encounter him in anthologies of primary sources in surveys of christian history and perhaps in specialized courses on the doctrine of the trinity eschatology asceticism or the like gregory of nyssa's doctrinal works presents a reading of the works in gregory's corpus devoted to the dogmatic controversies of his day andrew radde gallwitz focuses as much on gregory the writer as on gregory the dogmatic theologian he sets both elements not only within the context of imperial legislation and church councils of gregory's day but also within their proper religious context that is within the temporal rhythms of ritual and sacramental practice gregory himself roots what we call trinitarian theology within the church's practice of baptism in his dogmatic treatises where textbook accounts might lead one to expect much more on the metaphysics of substance or relation one finds a great deal on baptismal grace in his sermons reflecting on the occasion of baptism tends to prompt trinitarian questions

there is unanimity among johannine scholars that one distinctive characteristic of the fourth gospel is the fact that the evangelist presents jesus as caught in long drawn out juridical confrontations between himself and the jews martin asiedu peprah examines the two sabbath conflict narratives in the fourth gospel from a narrative critical perspective and thus takes a fresh look at the johannine juridical metaphor in doing so he attempts to pursue a three fold objective first he determines the precise nature of the juridical metaphor used in the two narratives and on the strength of it he undertakes a critical reading of the texts under study with the view to shedding new light on their meaning then he examines the role of this specific juridical metaphor in the two narratives the question here is for what purpose and how is this specific juridical metaphor used within the narrative framework of the two narratives finally he explores the historical setting of the two narratives and infers from it the social function the juridical metaphor would have played within the johannine *sitz im leben* in the light of his results martin asiedu peprah makes an attempt to examine very briefly the entire section of john 5 1 10 42 to see if the presence of the juridical controversy pattern in this section can throw light on one crucial issue in johannine research namely the purpose of the gospel in its present form
