this is the first volume of the series ages in chaos in which immanuel velikovsky undertakes a reconstruction of the history of antiquity with utmost precision and the exciting style of a presentation that is typical for him he shows beyond doubt what nobody would consider possible in the conventional history of egypt and therefore also of many neighboring cultures a span of 600 years is described which has never happened this assertion is as unbelievable and outrageous as the assertions in worlds in collision or earth in upheaval but velikovsky takes us on a detailed and highly interesting journey through the corrected history and makes us a witness to how many question marks disappear doubts vanish and corresponding facts from the entire near east furnish a

picture of overall conformity and correctness you will meet an egyptian eyewitness of the biblical plagues and the mysterious queen of sheba you will find out to where her legendary visit led her you will moreover learn surprising details about the temple of solomon and learn who was behind its sacking in the end you do not only wonder how conventional historiography has come into existence but why it is still taught and published just as velikovsky became the father of neo catastrophism by worlds in collision he became the father of new chronology by ages in chaos

the dark age of greece is the latest entry in the ages in chaos series first put forth by the late immanuel velikovsky in 1952 and is one more key brick in the reconstruction of ancient history proposed by him beginning with the termination of egypt s middle kingdom and the many centuries that followed whose dated credibility he challenged the fundamental thesis of this current book is that there was no true dark age but resulted from the forced capitulation on the part of classicists and others to the overriding influence of ancient egyptian chronology the specific outcome of the preceding was the creation of an inexplicable 500 year lacuna ca 1250 750 bc between the end of the mycenaean age and the rise of classical greece comprising some 500 pages of text and references the dark age of greece contains contributions by velikovsky himself and three of his associates from a detailed and vigorous study of the trojan war preclassical archaeology stratigraphy architecture sculpture ceramics jewelry sports warfare language literature heroes and divinities as well as comparisons with later classical and oriental examples of similar artifacts the greek dark age is revealed to be completely spurious the elimination of the greek dark age thereby reaffirms the need to correct egyptian chronology which when adjusted now makes the history of bronze age greece and that of the anatolian hittites completely whole and sensible

Getting the books **Velikovsky Ages In Chaos** now is not type of challenging means. You could not unaided going similar to ebook deposit or library or borrowing from your links to read them.
